02 • SERVICES

Our ICT Services

We offer a full range of ICT support and infrastructure services for residential, business, and institutional clients:

Data Recovery

Recovery of lost or corrupted data from hard drives, SSDs, and external storage media.

User Management

Setup and administration of user accounts, access rights, and permissions across systems and networks.

Networking

Design, installation, and configuration of wired and wireless networks for homes, offices, and institutions.

Troubleshooting

Diagnosis and resolution of hardware, software, and connectivity issues.

Sales

Supply of computer hardware, networking equipment, and related ICT products.

Repairs & Warranty

Professional repair services with warranty support on parts and workmanship.

Web Development

Website design, development, hosting, maintenance, and content updates — once-off builds from R5,000.

Computer Labs

Full DBE-compliant computer lab setup, 5 to 100 workstations, government procurement ready.

LABOUR CHARGES

All labour charged at R450.00 per hour (excl. VAT)

Call-out and parts quoted separately. Formal written quotations provided on request.

WHY CHOOSE MK ICT GROUP

- Local, Limpopo-based team with in-depth knowledge of the Mopani District
- Licensed and compliant: ICASA Class ECNS licence, CSD registration, B-BBEE compliant
- Transparent, fixed hourly labour rate — no hidden charges
- Warranty backed on all repairs and installed equipment
- One-stop ICT partner — from a single desktop repair to full network builds
